### TWELVE 2016 AMBULANCES

#### TO ALL PROSPECTIVE BIDDERS:

The following questions were submitted by potential vendors. Our answers are listed in *red* below:

#### Question:

1. Page 16, Section 4.7 Lettering: The bid specification states that Lettering should be installed on the vehicles. Is there an example of what is required so we can quote it accurately?

Page 40, section 11.1 Stretcher: Are there any optional pieces of equipment that you would like added to the cot? Items such as O2 bottle holders, IV poles, Storage flats etc...It might be a good idea to mention in the spec that the cot needs to have the performance load compatibility kit included as well. This is a rather expensive option on the cot that you will need for the cots to work in your trucks.

Lastly, are there any prints of the proposed ambulance that are available for reference purposes?

## ANSWERS:

### Stretcher Accessories:

- O2 bottle holder
- Iv pole
- Storage flat at the head of stretcher

### Stretcher Mount:

- Stryker Performance Load Mounting System with Charging Station
